

Jeremy Ramos

4/15/18

To Whom It May Concern:

I am writing this reference at the request of Brian Long, who is applying for a position with your company. Brian has worked with me on the Prospect website as Full Stack .NET Developer.

Brian has a number of strengths I'd like to share. He has exceptional technical skills. For example, he was in charge of developing the login and registration page, as well as the events section, creating a helpful user interface that helps athletes create and manage events. He has good understanding of React components, C# and SQL and can quickly learn new skills as demonstrated on these tasks. While working on these tasks he kept a positive attitude and learned very well from each failure only to improve the next time.

In conclusion, I would highly recommend Brian. If his performance on my team is any indication of how he'd perform in the available position, Brian will be an extremely positive addition to any team. If you need any additional information, feel free to contact me at by email at Jeremy@jeremyramos.com anytime.

Sincerely,

Jeremy Ramos

Senior Developer
